

Security as a Service

The flexibility you need for cybersecurity priorities that can change overnight.

Simplify Security With Resources & Expertise for Cloud, On-Prem, and Hybrid Environments

Budgeting, staffing, and tooling for unknown needs make security complex. That's why our Security as a Service (SECaaS) uses a customized approach to provide consultation, solutions, and services that meet your varying security objectives with a single budget approval.

Your SECaaS team is US-based, with certified, specialized skills and up-to-date knowledge of leading technologies. Our proactive threat detection and response, data security, and compliance approach frees your team for other projects. The result is greater precision for your cybersecurity initiatives and an improved ROI.

Converge SECaaS includes a wide range of cybersecurity services. You choose the ones you want, and only pay for the ones you choose. Budget protection is built in, with each service discounted **20 - 35% off** the cost of a single engagement.

Application Security

Cloud Security

Email Security
